

I need to express that K-LOVE is a very valuable radio service to me and my family. We have been listening to this station for years. It provides me and my family with positive, encouraging, and inspirational music and messages. Most of our friends love and support K-LOVE. Many people in my community show their support by adhering K-LOVE bumper stickers to their cars. It is my personal belief that K-LOVE's positive and encouraging format benefits not just me and my family, but our community as a whole. K-LOVE allows local churches and other organizations air-time to spread news about upcoming and current ministries that provide assistance to those in need. Without K-LOVE, many people in the community would be negatively affected. Please do not allow LPFM stations to take priority over current FM translator service. Eliminating K-LOVE from our area would have a negative effect on my and my family, as well as the community as a whole.
